

Simtec Consult - Remote and BYOD Working Policy

Version: 1.1

Status: Approved

Owner: Director

Applies to: All staff

Related to: Cyber Essentials

Last reviewed: 2026-06-22

Next review due: 2026-09-22

Purpose

Simtec Consult Ltd works remotely and uses approved cloud services. This policy sets the minimum security rules for staff devices used for company work.

Policy

Staff may use personal devices for company work only when those devices are supported, secure, and kept up to date.

Devices used for company work must:

- use a supported operating system;
- receive security updates;
- apply high-risk or critical security updates within 14 days;
- use a screen lock with password, PIN, or biometrics;
- keep the operating system firewall enabled where available;
- use malware protection or trusted app-source controls;
- use a normal day-to-day account and a separate local administrator account where admin rights are needed;
- avoid unapproved, unsigned, or unsupported software for company work.

Administrator accounts or credentials must be used only for administrator tasks such as installing software or changing device settings. They must not be used for everyday browsing, email, or normal work.

Staff connect directly to approved cloud services over the internet using MFA-protected accounts. Simtec does not operate an office LAN or corporate VPN.

Home ISP routers are privately owned or ISP supplied and are outside the Cyber Essentials scope. Staff must still keep home internet access reasonably secure and report concerns that may affect company work.

Review

The Director reviews BYOD requirements at least annually and when staff, devices, or Cyber Essentials requirements change.

Review History

Date	Reviewer	Description	Next review due
2026-06-22	Policy Manager	Clarified separate local administrator account and admin-use rules for BYOD devices.	2026-09-22

Date	Reviewer	Description	Next review due
2026-06-03	Policy Manager	Created current policy document aligned to Simtec requirements and relevant Cyber Essentials answers.	2026-09-03
