Version: 1.0

Effective date: 26 August 2026

Next review date: 26 August 2027

Approval status: Approved

This is Simtec Consult Limited's voluntary slavery and human trafficking statement for the financial year ended 31 March 2026. Simtec is below the statutory turnover threshold for mandatory reporting, but publishes this statement to support transparency and responsible procurement.

1. ORGANISATION AND SUPPLY CHAIN

Simtec Consult Limited is a company incorporated in Wales under company number 13710785. We provide software development, digital systems and consultancy services, primarily to organisations operating in construction, infrastructure and environmental sectors. Services are delivered by a small core team and selected specialist contractors.

Our supply chain principally comprises specialist software development and consultancy resources, cloud hosting and software providers, professional advisers, recruitment support, office equipment and business travel services. Some specialist services may be supplied from outside the UK.

2. POLICIES AND GOVERNANCE

The Managing Director has overall responsibility for modern slavery risk. Simtec has adopted an Anti-Slavery and Human Trafficking Policy supported by its Whistleblowing Policy, Anti-Corruption and Bribery Policy, Health and Safety Policy and supplier and contractor controls.

3. RISK ASSESSMENT AND DUE DILIGENCE

Our direct modern slavery exposure is assessed as low because we provide professional and digital services and maintain direct relationships with a relatively small number of workers and suppliers. We recognise that risk may be higher where labour is supplied through intermediaries, work is subcontracted without visibility, services are delivered in higher-risk jurisdictions or commercial terms appear inconsistent with lawful pay and working conditions.

During the year, Simtec managed supplier risk through direct oversight of key relationships and contractual arrangements. A dedicated formal modern slavery audit was not completed. Following review, Simtec is formalising a risk-based due diligence process for new and higher-risk suppliers and subcontractors.

4. REPORTING AND REMEDIATION

Concerns may be raised with the Managing Director or through the Whistleblowing Policy. Where a concern involves the Managing Director, it may be raised with Simtec's external legal adviser. Simtec will assess concerns promptly, protect reporters from retaliation, prioritise the safety of affected people and work with appropriate authorities or specialist organisations where necessary.

5. EFFECTIVENESS AND NEXT STEPS

No confirmed incident of modern slavery was reported to Simtec during the period covered by this statement. This does not constitute a guarantee that every tier of the supply chain is free from risk.

For the year ending 31 March 2027, Simtec intends to:

- communicate the Anti-Slavery and Human Trafficking Policy to staff and relevant contractors;
- record risk-based checks for new and higher-risk suppliers and subcontractors;

- introduce proportionate modern slavery clauses into relevant new contracts and renewals;
- record concerns, investigations and corrective actions;
- review this statement and the effectiveness of these measures annually.

6. APPROVAL

This voluntary statement was approved by the Board of Simtec Consult Limited on: 26 August 2026

Signed for and on behalf of Simtec Consult Limited:

A handwritten signature in black ink, appearing to be 'J. O'Sullivan', with a large loop at the start and several horizontal strokes at the end.
